

Red Metal Resources Announces Results of Drilling at Farellon

THUNDER BAY, ON and VALLENAR, CHILE, January xx, 2014– Red Metal Resources Ltd. (OTCQB:RMES), a mineral exploration company with copper-gold assets in Chile, is pleased to announce that its Chilean subsidiary, Minera Polymet Limitada, (“Polymet”) has received results from its previously announced (News Release Nov. 5th, 2013) drilling on its Farellon property.

The target of the drilling was to expand on the intercept in drill hole FAR-11-001 of 3.95% Cu and 0.53 g/t gold over eight metres. The two new drillholes totaling 116 metres, FAR-13-001 and 002, were drilled 25 metres along strike and intended to aide in identifying the most prospective area on the site to initiate small scale production. The results from these drill holes were FAR-13-002 contained 2.15% Cu over 7m with .28 g/t Au, with the FAR-13-001 hole returning 0.70% Cu over six meters with 0.20 g/t Au and including 1.25% Cu and 0.34 g/t Au over 2 meters.

The Farellon property consists of seven mining and exploration concessions totaling 1,053 hectares in the Carrizal Alto mining district located approximately 75 kilometers northwest of the city of Vallenar, 150 kilometers south of Copiapo and 20 kilometers west of the Pan American Highway. The property is easily accessible year round by dirt roads that crisscross the property and is located close to power, water and a major urban centre, Copiapo, with a readily available mining workforce.
